

## Updated Appendix 5B

Challenger Exploration Limited ("Challenger or the "Company") provides an updated Appendix 5B that was lodged on the 28 April 2023, with the 5B amended to the updated ASX template.

All numbers remain the same.

There is a difference in the calculation for the estimated cash available for future operating activities, that does not allow the positive cash impact of item 2.5 (cash gains on converting USD to Argentinian Peso's. Based on the official rate converted at the market rate) in the calculation.

The positive cash gains from item 2.5 will continue for the Company into the future.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No. Cash outflows will continue to be reduced. The Company will assess the data from remaining assay results as it moves into a Scoping Study at the Hualilan Gold Project, Argentina and a maiden Mineral Resource Estimate at the El Guayabo Gold / Copper Project in Ecuador. The estimated quarters of funding available calculation does not include item 2.5, which has a positive impact on cashflow of almost \$1.7M and will continue to have a positive impact in coming quarters.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Company is continuously assessing funding requirements and is currently not of the view it needs to raise funds given the cash outflow will be reduced significantly in the coming quarters
